Räblus – Restaurant and Winery

In the heart of the vineyards in our garden or in the cellar, you can taste our wines. Then, one floor up, a “Fisherwoman’s Menu” with a view of the lake awaits you. The Räblus is a restaurant with fish specialties as well as vineyards. You will find the best of the lake and the grapes. The Wyseier family has been running the Räblus for 300 years- With Jakob, Lynda and their daughter Carly, the Wyseier are now in the fifth generation. Ruth Wyseier and her partner Werner Schweizer take care of the vineyards, the cellar and the wine.

Wines with our signature

In the vineyards as well as in the cellar, we take great care of our specialties. In addition to the regional classics, the Chasselas and the Pinot Noir, we started early with mildew-resistant grape varieties. We vinify them individually and according to their potential.

The personalization of our vineyards, the experimentation with new grape varieties.

The respect for tradition is reflected on our labels. They illustrate the watercolours of the painter Oskar Binz and are signed by us with the name of our wines.
